

LLOYD

SERENER

MAINTENANCE MANUAL

The Lloyd family consists of sleek and modern pieces of furniture crafted from high-quality powder-coated steel. Its contemporary design adds style to any space while offering durability and functionality. Here are essential maintenance tips to keep your Lloyd furniture in a good condition:

Routine Care

- Regularly clean with a soft, damp cloth. Avoid using abrasive or harsh cleaning products, as they may damage the powder-coated finish.
- To prevent the buildup of dust and debris, dust the surface regularly with a clean, dry cloth or a soft brush.
- In case of spills, blot the affected area immediately with a clean, absorbent cloth to prevent staining. Clean the surface with a mild, soapy solution and lukewarm water. Rinse thoroughly and dry with a clean, dry cloth.

Stain Removal

- Wipe away excess stains immediately with a clean, damp cloth or sponge. Dry the surface thoroughly with a clean, dry cloth.
- For stubborn stains, use a mild solution of soap and lukewarm water. Dampen a soft cloth with this solution and gently clean the stained area. Ensure you rinse off any soap residue and dry the surface completely.

Scratches and Repair

- In the event of scratches or damage to the powder-coated finish, we offer touch-up solutions in the form of lacquer pots. These lacquer pots are designed to help restore the original appearance of your Lloyd Table. For further assistance, please contact our customer service.

Additional Tips:

- Never use abrasive cleaners, scouring pads, or harsh chemicals on the powder-coated steel surface, as they can scratch or damage the power-coated finish.
- Consider using coasters, placemats, or tablecloths to prevent scratches and stains from items like hot pots, plates, or glassware.
- When transporting the table, lift it gently rather than dragging it to avoid damaging the legs or scratching the surface.

By following these maintenance guidelines, you can ensure that your Lloyd furniture remains in excellent condition and continues to enhance your living space.
